What is Pursuit of Freedom?

Pursuit of Freedom is a 32 week course: which follows on from Rock Solid and Living Essentials. Whilst LE is not a pre-requisite for our courses, it will help the student with the commitment necessary to complete this workshop. POF is 50% theory and 50% practical.

Pursuit of freedom is real life journey of the principles of truth which sets free. One cannot be truly free without pursuit of truth and the strategies to pull down strongholds and destructive patterns of thinking. POF, will provide that initiative.

The difference however was summed up by Jesus himself. He replied, "My mother and brothers are those who hear God's word and put it into practice." **Luke 8:21**

When Jesus walked on earth, He not only taught His followers and hearers about "Principles" that God desires us to live by, but by his lifestyle, lived an empowered life.

The course utilizes several professional assessment surveys, online data-bases and ministry times throughout the course.

God's Word is for us. It gives us Principles that are unchanging, despite the decline of absolutes in most societies.

We have an assurance that "A life lived by kingdom principles", will not only build hope for the future, but in our families, our towns, our cities, and our nations.

If change is to come in us, and add value to our society, it will be through individuals that live by "Conviction" and not by

The Course

"preference". The course is divided into four semesters of eight weeks duration. Taught over two 50 minute sessions with refreshments in between, each session will build into a comprehensive understanding of kingdom principles. There are weekly memory verses and homework required to complete the course.

The Cost

At the conclusion of the course a prophetic presbytery is held at which recognised Prophetic ministries will pray and minister to those who have satisfactorily completed the course. Freedom is a choice! A choice to **know** (Epignosis), and it is that which sets us free.

**\$ 4 per week per student (\$32 per semester)
\$128 per year which Includes manuals and
access to online data-base for 12 months.**
